

A brief report Inauguration of RO Plant at Village Ajapar

Place: Village Ajapar

Date: 24/04/2015

1. Campaign with villagers for awareness:

- *Motivate the village people for maximum use of pure water.*
- *Health Benefits of Pure & safe Drinking water*
- *How to Use – RO with card.*

2. Card Distribution to villagers just after inauguration function :

- *Total 80 cards distributed in 1st day in 1st half of the day, a very good response seen in the beneficiaries.*

3. Inauguration ceremony of RO Plant:

- *RO plant inaugurated by Brig. Atul Wahi (President-Welspun)*

4. People started use of RO Plant – success of 1st Day:

Feedback from the beneficiary Community:

1. Lady Sarpanch Mrs. Ramiben Dhana Rabari says “The village is presently using Salty water with very High TDS, which may be a major reason of various diseases especially on children & women health. RO plant will very useful for the poor & middle class families of village, as they cannot afford so costly Bottles (Rs. 20/- per 20 lts.). Whereas now pure & safe drinking water is available at their own village in very reasonable cost (Rs. 5/- per 20 lts.) she expressed lots of thanks to Welspun for the this effort in their village.
2. Kamlaben - Principal of Primary school opines that such kind of initiative also will have long term impact on health of community. Such initiatives would not only ensure disease prevention and healthy living but also promote ecology and prevent environment degradation. Concept of RO plant installation in village promoted by Welspun foundation Happy Move Camp will serve as the model for the village community to replicate.
